Many bars and restaurants have reopened to a new normal. Many will never reopen. At this writing, over 16,000 restaurants have permanently closed. The hospitality industry is in danger. Please support your favorite spots through take-out food and cocktails. Tip generously. Learn more ways to help out [here](#).

We made and distributed over 2,000 gallons of hand sanitizer to our community in the past few months. In our spare time, we started a [blog](#) and embroidered some [hats](#). Looking to elevate your cocktail game? Check out our ideas on infusions on our blog and our [Pinterest](#) page. Speaking of those hats, we also have some other cool stuff and share our love of hippy-dippy sacred geometry t-shirts, too.

Want to make your own green chile vodka? lemon vodka? grapefruit-lime gin? Infusions are easy.

Here's How:

1. Buy a bottle of Spring44 Vodka or Gin
2. Find a good container with a wide mouth and air tight lid to seal
3. Prep your flavor (wash and dry, cut if needed)
4. Infuse (check often for flavor intensity - once at preferred intensity remove flavoring)
5. Mix into favorite cocktail and enjoy!

Infusion time recommendations:

- 1 or 2 hours for hot peppers (especially if cut)
- 3 to 4 days for intense flavors
- 1 week for moderate flavors (most fruit)
- 2 weeks for mild flavors

Try this cocktail with a citrus infusion-

- 1 1/2 oz. Spring44 Honey Vodka (citrus infused)
- 6 mint leaves
- 3 oz. club soda

In a mixing glass muddle 5 mint leaves and honey simple syrup. Add vodka and shake. Strain into cocktail glass filled with ice and top with soda. Garnish with mint leaf.

*Be kind. Wear your mask.
Until next time,*
