

Spring44 Honey Flavored Vodka is savory and delicious due to our subtle use of real honey. We are an American distiller that uses some of the world's rarest water. Vodka is 60% water and we only use Colorado Rocky Mountain artesian mineral spring water, naturally filtered by the earth. No municipal water touches our Honey Flavored Vodka. Perfect vodka requires perfect water.

Gluten free.
Spring44 is perfect by nature.
The proof is in the water.
